10/09/15

FR 601020

**ROUTE STOP TIMES** These columns indicate at what time the bus will stop at the **ROUTE STOP LOCATION** above it in the table.

Read Edna's Story [below]

to see how she uses ATA route schedules to plan her grocery shopping trip!

"I found several bus routes in and around my neighborhood on ATA's new website... [www.rideata.com](http://www.rideata.com) Looking over the bus stop locations I found a route that was close to my home and would take me to where I needed to go."

**DEPART CAREER LINK**  
#1 on the route table above

**1:04pm**

Reading the schedule from Left to Right you can see that if I wanted to get ON the bus at **1:04pm** I would need to be at **CAREER LINK** in Clearfield to catch the bus. This is the stop closest to my home so I will use this one.

**ARRIVE WALMART**  
#2 on the route table above

**1:35pm**

The bus comfortably and safely takes me to **WALMART** where I want to do some grocery shopping. The bus drops me off at **1:35pm**. I have 1 hour to do my shopping and get back to the bus stop for my return trip.

**DEPART WALMART**  
#3 on the route table above

**2:35pm**

I have my groceries and board the bus at **2:35pm** just outside **WALMART** and I am on my way back home.

**ARRIVE CAREER LINK**  
#4 on the route table above

**3:05pm**

The ATA bus takes me back to my neighborhood stop at **CAREER LINK** and drops me off at **3:05pm**!

The round trip only took 2 hours of my afternoon and I didn't have to worry about traffic, parking, pumping gas or anything! Thanks ATA!
